The Control Panel

Cleaning & Maintenance

Spare Parts Identifier

Congratulations on choosing the Quattro. This is a versatile drinks dispenser with a comprehensive array of intuitive inbuilt features. Many of these can be simply controlled through settings on the Programme Control Panel.

The Programme Control Panel

The programming panel is located on the inside of the door. Pressing the 'Program' button opens a sub menu for the following (scroll through the sub menu using 'Up' and 'Down').

Machine Audits

- Press 'Enter' to open the menu.

- The display shows the total amount of drinks the machine has dispensed.

- Use 'Up' and 'Down' to view individual drinks dispensed.

Drink Settings

- Press 'Enter' to enter the menu.

- Use 'Up' and 'Down' to cycle through the available drinks.

- Once you have chosen a drink you would like to program, press 'Program'.

- Use 'Up' and 'Down' to increase or decrease the selected value.

- Use 'Scroll Up' and 'Scroll Down' to select the above or below ingredient.

- You can use the 'Flush' button to test the drink.

- When you are happy with how the drink tastes, please press 'Enter' to save the changes.

Restore Defaults

- **Load Defaults Set A** - Defaults the machine back to factory settings. (7oz and 10oz).

- **Factory Reset** – Restores all settings back to factory.

- **Load Defaults Set B** - Defaults the machine back to factory settings. (10oz and 12oz).

Temperature Settings

- Press 'Enter' to open menu.

- Use 'Up' and 'Down' to increase or decrease the required temperature setting between 80-97ºF.

- Once changed please press 'Enter' to save.

Clear Audits

- Clears the audit completely resetting the total amount of drinks back to '0'.

Payment Settings

- Not yet available.

Auto Standby Setting

- Press 'Enter' to enable or disable the auto standby feature. Once the desired setting has been selected please press 'Enter' to save.

  OFF, 4HR, 3HR, 2HR, 1HR

Flush

- Press and hold the 'Flush' button to initiate a flush.

Cleaning Instructions

To ensure ongoing reliable operation of your drinks dispenser and to maintain the warranty, it is vital that the machine is cleaned regularly. Daily we recommend flushing the machine once in the morning and once at night. Weekly cleaning regimes are advised as follows:

Weekly Cleaning

Please complete the daily clean above and then follow the instructions below for the weekly clean.

1 Remove steam trap
   - see image ①

2 Push locking lever anti-clockwise
   - see image ②

3 Remove whipper bowl by pulling it towards you - *see image ③*

4 Remove impellor by pulling it towards you - *see image ④*

5 Turning locking lever further anti-clockwise will allow you to remove the base and seal
   - see image ⑤

6 Place all items in soapy water and scrub if necessary, ensure soap has been completely removed before refitting

7 Refit in reverse order, remembering to push locking levers clockwise
   - see image ⑦.
